ESTHER MCCANN

MANIFESTATION COACH & AUTHOR

ESTHER'S MISSION IS TO MAKE MANIFESTATION MAINSTREAM

Esther aka Miss Manifesther, is an international Manifestation Coach, the Author of "[Manifesting Happiness](#)" & a Public Speaker.

She works with entrepreneurs, freelancers and creatives to manifest their success, love lives and fulfilment by teaching them the principles of manifesting. As a result they take complete control of their lives and switch up their mindset, as they release their blocks to success and achieve their goals from a place of purpose and passion.

Esther discovered she has a natural gift for manifestation following her divorce in 2017. She rapidly gained authority in this space, being approached by Dorling Kindersley of Penguin Random House to create a Manifesting Journal for the mass market.

Her work is regularly described as "life changing"; she knows everybody wants to create their best life and they deserve to earn more, find love and or happiness, or to strengthen their mental health.
